

Technology is essentially pervasive in our education environment.

Learn how Cloud can help you extend services out to your community, improve uptime and decrease overall Total Cost of Ownership (TCO).

Learn how you can:

- Distribute Academic Desktop environments out to any device, inside or outside of your District
- Avoid service interruption to critical systems, such as SIS, Finance Manager and Email
- Extend collaboration between teachers and classes, ad-hoc workgroups and other Districts
- Leverage E-Rate to reimburse Cloud Solutions
- Reduce TCO for IT maintenance and support

Join us for a lunch and learn on January 24, 2012 from 12 PM to 2 PM and learn how. Register here:
