

## Internet Filtering for iPad® & Other Mobile Devices Lunch 'n' Learn

*Courtesy of BASCOM and Western Suffolk BOCES*

**When:** Thursday, December 15<sup>th</sup>, 12:00pm to 2:00pm

**Where:** Wheatley Heights Room 200

**Enroll Link:** <https://www.mylearningplan.com/WebReg/ActivityProfile.asp?D=13208&l=1029489&H=1>

### Join us for a complimentary lunch while learning how BASCOM:

- Created **Anywhere Filter™** in 2009 for a school district implementing a 1:1 laptop program and expanded its capabilities to include iPad®, Mac OS® X, and Windows® devices. Currently **Anywhere Filter** is being implemented at schools across the country  
[See BASCOM in a TV News Story Featuring New Anywhere Filter.](#)
- Developed **PlayRight™**, an easy to use video management solution that removes distracting content such as comments and suggested videos from YouTube, TeacherTube, and SchoolTube. This is done seamlessly without the need for additional proprietary software.
- Developed an online learning center, **My Communitas™** — a customer-branded Web portal that gives students, teachers, and parents easy access to thousands of teacher-reviewed, curriculum-aligned Web resources, lesson plans & activities and school generated content.
- Built its Internet filtering solutions specifically for schools and other educational environments. Learn why it's not just about blocking access to inappropriate sites; it's about managing the Internet-enabled learning process with innovative teaching tools designed to achieve maximum results.

***“We handed out 21 iPad devices to our fifth graders last month as a 1:1 pilot project, and it was so nice not to have to worry about the filtering aspect, because I knew that BASCOM had it covered.”***  
***Donald Murphy, Ed.D., Wantagh UFSD***
